

# Irrigation System Warranty Information

Sprinkler Tinkerer offers a warranty on all irrigation work that is performed on any irrigation system; 5 years' parts and labor. This warranty comes with certain terms and conditions.

This warranty **DOES NOT** cover the following:

- Damage by the homeowner to the system, eg. shovel through water lines or wires
- Damage by any landscape company to the system, eg. new landscaping
- Damage by any aeration to the system, eg. heads hit by plug tines
- Destruction of the system by homeowner pets, eg. dog eating/biting sprinkler heads
- Freeze damage due to a preexisting failed valve inside the house:
  1. A valve that was not replaced when a new system was installed
  2. A valve that is known to leak and is not/has not been replaced
- Any existing part of a system that Sprinkler Tinkerer has not performed repairs on or installed
- Any piping inside any house that is PVC
- Any piping inside the house that is NOT the irrigation tap
- Homeowner failing to protect the backflow and exposed pipe from freezing weather
- Theft of backflow

The warranty **IS VOID** if the following occur:

- The system is winterized by someone other than Sprinkler Tinkerer
- The system is not winterized at all
- The homeowner or other individual tampers with or changes the system from its original design: The system (if new) is designed to operate as is, without physical change from the homeowner, changing clock operation times does not violate the warranty
- The system is activated by someone other than Sprinkler Tinkerer
- The system is repaired by someone other than Sprinkler Tinkerer
- The clock is moved from its original location
